

EXECUTIVE COMMITTEE

The PAA gives both the auditor-general and the deputy auditor-general the authority to delegate their assigned powers or duties to any member of staff. The executive committee (exco) assists the deputy auditor-general to manage the business affairs of the organisation, in line with the delegation of authority set out in the AGSA management approval framework.

Chaired by the deputy auditor-general, exco consists of the national leader for audit services and the corporate executives. It focuses on our strategic plans, reviewing and directing their implementation throughout the year. Exco meets regularly during the year and, when required, holds special meetings. It also has the power to establish subcommittees to assist it.

Exco met 10 times during the 2020-21 financial year. It dealt with implementing strategic initiatives, approving various policies and strategic documents, considering the internal and external auditors' management reports, and monitoring management information for issues and trends.
